- Add individual specific documentation
- View a snapshot of their skills & training
- Make them inactive as needed, and record reason

LabLite Calibration, Maintenance & Training Program

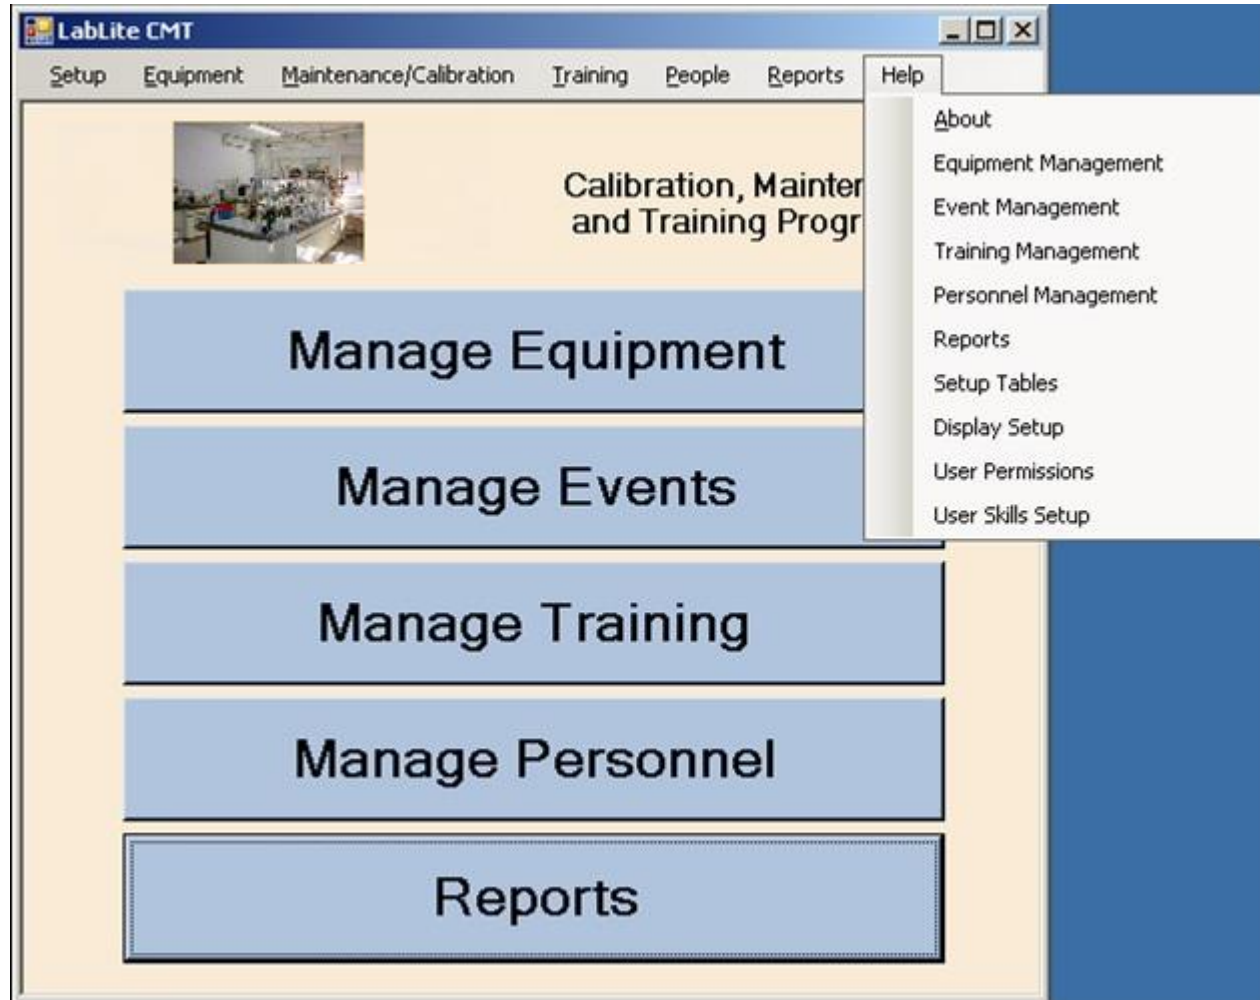

The screenshot shows a web application window titled "Reports" with a sub-header "Select a Report". A dropdown menu is set to "Calibration Detail". Below this is a section titled "Equipment" with a list of items: Preservation Solutions (expanded), Hach DO Meter, Hach DO Probe, Spectr AA 600, Compression, Latchat IC, PinAAcle AA 900 (expanded), sub comp 1, Tablet Press, and Capsule Filler. There are navigation arrows between the list and an empty selection box. Below the equipment list are two date-time pickers labeled "From" and "To", both set to "06/02/2017 12:22 PM". A "Submit" button is at the bottom.

The program comes with a full complement of detail and summary reports including:

- Calibration, Maintenance, and Event Detail
- Event Cost Detail
- Equipment Location
- Equipment Downtime
- Equipment Current Value
- Work Assignments

LabLite Calibration, Maintenance & Training Program
